EXPERIENCE

F-16 Aerospace Propulsion Technician 148th Fighter Wing

Aug 2016 – Present, Duluth, MN

- Identified erroneous maintenance schematics by drawing on the expertise of top experts in the unit and drawing technical conclusions for remediation based on the analysis.
- Effectively directed and streamlined a laser etching work-stream of the aerospace propulsion maintenance activities to create an efficiency that reduced overall maintenance time.
- Overhauled unit-wide personnel in-processing criteria by independently researching in-process pipelines and then discovering and eliminating all redundancies and obsolete items.
